

“50 for 50” Earn & Learn Scholarships

Looking for a career in Manufacturing?

In honor of Hamilton-Ryker’s 50-year anniversary, our TalentGro division will be awarding “50 for 50” Earn & Learn Scholarships to students who are 18 or older, and are finishing or have recently graduated high school. Our goal is to provide career pathways for students who are interested in Manufacturing.

The scholarships will provide 12 courses from ToolingU-SME that will introduce participants to the manufacturing industry. The courses include:

Basic Measurement	Intro to Welding	Intro to Robotics
Blueprint Reading	Essentials of Communication	Intro to OSHA
Math Fundamentals	Math: Fractions & Decimals	Quality Overview
Troubleshooting	Units of Measurement	Introduction to Assembly

Here’s how the scholarships work...

STEP 1 - Contact your local Hamilton-Ryker branch office, and complete a brief application explaining why you are interested in receiving this scholarship.

STEP 2 – Apply for a qualifying Manufacturing position. We are working with several manufacturers in the area and will match you with the best position.

STEP 3 – Complete Hamilton-Ryker’s Orientation process and be placed on assignment if selected.

STEP 4 – Once you have worked 80 hours, and you are in good standing, you will be eligible to start your courses.

STEP 5 – Complete the 12 courses as you are working and receive a Certificate of Completion.

It’s that simple!

So, contact us TODAY!
