military talent?**

Military Apprenticeship, Recruitment and Placement Program (MARAPP)

TalentGro is a DoL Registered Apprenticeship sponsor with VALOR Act approval through VA Education, which allows eligible transitioning military, veterans, and families to receive GI benefits while participating in a Registered Apprenticeship Program.

We can help you build your apprenticeship program, while simultaneously finding you top military talent. Or, you can simply enlist our help to find transitioning military members, reservists, veterans and their families to help fill your direct-hire positions.

OUR SERVICES

TalentGro utilizes 50 years of recruiting experience coupled with AI powered recruiting, engagement, and applicant tracking technology to efficiently seek, screen, and present top military talent to our employer partners.

Typically, TalentGro Military will collect a placement fee when a transitioning military member, reservist or veteran is placed with an employer. However, our access to federally funded programs and grants can help offset some of the cost of employment.
